Publicity Director	<input checked="" type="checkbox"/>	Director Member at Large (6)	<input checked="" type="checkbox"/>
Ways & Means Director	<input type="checkbox"/>		

Board of Directors Application

Part 2 – Tell Us about Yourself

Bio – (100 word or less)

I was born in Kamloops and have lived in Lac Le Jeune my entire life. I went highschool at South Kamloops Secondary School and I am currently 20 years old and am studying my 3rd year of Biology at Thompson Rivers University. After I finish my degree at TRU, I hope to attend medical school and one day become a doctor. I want to pursue this as a career because I love to help others, work as a member of a team, and enjoy learning about science! In my free time, I love to live an active lifestyle and spend as much time as possible outside. Over the years, I have found a great way to do this is through team and individual sports. In terms of team sports, I have had the honour of representing British Columbia on two provincial teams for rugby and basketball and played several years of high level soccer. Individually, I regularly trail run, cross country ski, mountain bike, and road cycle. I also enjoy making a difference in my community through volunteering as a member of search and rescue, emergency department volunteer, and coach for cross country skiing and soccer! Each of these experiences have shaped who I am and have had a tremendous impact on myself. I believe it is my positive attitude, enthusiasm, and ability to problem solve that has made me successful in each of these commitments.

Why do you want to be on the board? (75 words or less)

I have been a member of Overlander Ski Club for as long as I can remember. I grew up racing for the club, have been a coach with the club for two years, helped organize the 2022 Mini Olympics, and assisted with the waxing clinic fundraiser for the racing team. I still continue to represent Overlander in competition and plan to compete in the U23 division in the 2022/2023 season. This club is something that I love to be a part of so being on the board would be another way to give back to something that has given me so much. I enjoy being in leadership positions and having responsibility, so I feel being a member of the board would be a great experience. I hope as a member of the board I could bring new, exciting ideas and initiatives at the club to engage members, and help continue the clubs success.

What Skills and Experience do you bring to the board? (75 words or less)

I am personable, hardworking, organized, and accustomed to being in leadership positions. At my university, I am the president of the TRU Run 4 Fun Club, and have organized several fundraising initiatives to serve charities. I have also worked as a undergraduate researcher in two of TRU's most successful research laboratories, the TRU Gen Applied Genomics Laboratory and the TRU Extracellular Vesicles and Endothelial Dynamics Lab, as one of the lead researchers on several projects. I have done this all while maintaining a full course load each semester for which I have maintained one of the 10 highest grade point averages in the entire faculty of science and dean's list for every semester at TRU. Through each of these experiences, I have had to lead others, be creative, and work hard to meet deadlines and stay organized. I believe each of these skills I have learned through these experiences will help me carry out tasks effectively as a member of the board.
